

Aaron Hawkins

Connah's Quay, CH54JG | 07886230404 | aaronhawkins101@aol.co.uk

A hard-working and practical individual with solid experience across construction, IT, and customer service. Possesses strong mechanical aptitude and problem-solving abilities, developed through hands-on work building race cars, maintaining motorbikes, and performing complex vehicle repairs including tracking, alignment, and braking systems. Eager to expand technical skills within a manufacturing or engineering setting, bringing a proven ability to follow strict safety protocols, interpret technical specifications, and communicate effectively on-site.

Work Experience

2022– Present

Construction Labourer | Hawkins Property Maintenance, North West UK

- Assembled and installed load-bearing steel structures which adhered to safety and quality specifications.
- Maintained a tidy and safe worksite following all health and safety regulations.
- Developed strong teamwork and practical problem-solving abilities.

2021 - 2022

Order Picker | Phoenix Medical Supplies, Runcorn

- Operated safely and efficiently within a highly regulated, fast-paced environment, maintaining strict adherence to manual handling and operational safety protocols.
- Applied high attention to detail for quality control, ensuring the precise selection and handling of materials and stock.

2019 - 2021

Sales & Retentions and Customer Service Advisor | Tesco Mobile, Runcorn

- Interpreted technical product specifications and matched them to specific user requirements, demonstrating a strong ability to understand and communicate technical data.
- Followed highly structured troubleshooting procedures and system workflows, applying a methodical and logical approach to problem-solving that translates directly to mechanical/electrical diagnostics.
- Maintained strict compliance and accuracy while documenting activity, reflecting the exactness and attention to detail required for site reporting and safety logs.
- Communicated clearly and de-escalated high-pressure situations, essential skills for safe and effective site coordination.
